Foreign Exchange trading is an attempt to generate a profit by speculating on the value of one currency compared to another. It can be a complex and risky business and predicting movements in currencies is very difficult. Clients rely more and more on specialist advisors to show them the right way. Trading in international currencies requires a great amount of know-how, research and training, which a qualification from IIT will provide you with and you too will be able to excel as an advisor.

Are you ready to turn your life around?
We provide nationally recognised education that is both flexible and affordable. Our Foreign Exchange training can be completed by Distance Education or face-to-face to ensure all students are able to obtain a qualification that presents them with the best opportunities possible.

This course is comprised of THREE modules:

Financial Planning in Practice (FPP)
Provides students with the framework and foundation to understand the financial planning process (including both general and personal advice)

Principles of Investment Planning (PIP)
Provides students with the specialist knowledge required to offer advice on securities, derivatives, risk profile management, asset allocation strategies and portfolio structures.

Principles of Foreign Exchange (FX)
Provides students with the specialist knowledge to offer advice on foreign exchange.

Course Overview
The International Institute of Technology (RTO no.21421) provides quality skills based training courses necessary to become ASIC RG146 compliant and kick start your career in the fast growing financial services industry.

Entry Requirements
There are no entry or eligibility requirements for this course. However if you wish to only complete the Principles of Finance Applications – Foreign Exchange (PFA-FX) module you need to have previously attained the competency units contained in the modules Financial Planning in Practice (FPP) and Principles of Investment Planning (PIP) or the equivalent if you have previous studies with another provider, see below for competency unit listing. Evidence required upon enrolment.

Course Duration
The duration of the course will vary depending on each individual student and their prior experience and knowledge. 303 hours over a maximum of 8 months is the recommended time frame for students new to the industry.

Assessments
True / False Questions (TF), Multiple Choice Questions (MCQ), Short Answer Questions (SAQ), Case study, Role-Play and Oral Assessments. For more information on assessments visit http://www.iit.edu.au/about

Exemptions and Recognition of Prior Learning (RPL)
If you have completed previous studies in the financial services area, you may be eligible for some credits towards the course by way of course exemptions. For more information on course exemptions and recognition of prior learning, visit http://www.iit.edu.au/about/
Blended Delivery

Blended delivery includes a series of tutorial workshops combined with self-paced study. Our face-to-face workshops create a friendly classroom environment to enable learning in a timely and structured way. The sessions allow students to bounce ideas around with other participants – not to mention the networking opportunities or achievement of corporate team goals. Facilitators are industry professionals with real world experience and take the time to tell their war stories, which help explain the concepts in an exciting way.

Distance Education

Distance or self-paced learning allows you to start a course when it suits you best. Moreover, it provides you with the flexibility to continue with your other commitments in life, such as work, parenthood and your social life. BEST OF ALL, it gives you access to our Distance Education Team who can discuss concepts, conduct skill-based role plays and provide feedback on any assessments submitted.

Qualification Pathway

This course has national recognition. This course counts as a partial completion towards the FNS50615 Diploma of Financial Planning.
