Mind Your Own Business (MYOB) AccountRight Short Course

The Mind Your Own Business (MYOB) Short Course goes through the MYOB AccountRight program and shows you the basic aspects of running your own business with the software.

Using a student edition of AccountRight, our program goes through a business, Child's Play, and their activities for the month of July 2014.

This course is designed to help those running their books for their own company, or an accountant or bookkeeper working for specific businesses. It will assist you in learning how to enter daily financial transactions into the Sales Purchases and Banking Command Centres.

How Using MYOB Helps Businesses:

Stay Ahead of Tax Changes

Make it easy to meet your tax obligations with fast and easy updates including the 2016/17 tax and payroll release. Certified by the ATO as SuperStream compliant.

Painless Payroll and Timesheets

Confidently handle PAYG, state-based payroll tax, superannuation and leave, even if you work from timesheets.

Easy Project and Job Tracking

Keep an eye on how much time and money has been spent and how it stacks up against your plan.

Take Control of your Stock

The inventory management software is so advanced, you'll be able to track what you buy and sell.

Course Overview

The International Institute of Technology (RTO no.21421) provides quality skills based training courses necessary to become competent in using MYOB for accounting/bookkeeping specific roles.

Entry requirements	Basic computer skills.
Course Duration	The duration of the course will vary depending on each individual student and their prior experience and knowledge. 12 hours over a maximum of 6 months is the recommended timeframe for students.
Assessments	Short Answer Questions (SAQ) and Open Book Multiple Choice Quiz. For more information on assessments visit http://www.iit.edu.au/about
Required Resources	<i>Hardware</i> - to complete all of the assessments, learners will need a computer/laptop, preferably with USB capabilities. <i>Software</i> - To complete all of the assessments, learners will need Microsoft Excel 2003 or later, Microsoft Word or later and internet connection. Learners will be instructed to download the Student Edition MYOB Accounting Software in this course.

Distance Education	Distance Education is the most flexible of study options as it allows you to study anytime and anywhere. All reading material and assessments are accessed through the Moodle eLearning platform giving students flexibility to study while travelling or away from their desktop computer. This option also gives you access to our Distance Education Team comprised of experienced finance professionals who can discuss concepts and provide feedback on any assessments submitted.
